

Project Manager Logistics & Transformation

KLG Europe is growing. Our logistics operation is becoming increasingly extensive, digital, and complex. In the coming years, we will continue to invest heavily in the further professionalization of our transport activities, warehouses, digitalization, automation, and operational excellence. For this purpose, we are looking for an experienced Project Manager Logistics & Transformation.

In this role, you will not only lead projects but will primarily be responsible for realizing lasting improvements within our organization. You move effortlessly between management and the shop floor, know how to engage people in change, and ensure that projects deliver measurable and sustainable results in the areas of quality, productivity, customer satisfaction, and cost control.

What makes this role unique?

This is not a role from the sidelines. You will be visibly present on the work floor, work closely with Operations, Finance, QESH, IT, Engineering, and Management, and be responsible for tangible improvements within a dynamic logistics environment. You will have the opportunity to make an impact on strategically important projects that directly contribute to the further growth and professionalization of KLG Europe.

What will you do?

- You will be responsible for initiating, leading, and successfully implementing organization-wide improvement and transformation projects within our logistics operation. Examples of projects include:
- Optimization of transport, warehouse, and cross-dock processes;
- Implementation of TMS, WMS, and other logistics systems;
- Change programs focused on efficiency, quality, and customer satisfaction;
- Dashboarding and KPI structures;
- Monitoring established objectives and being responsible for planning, budgets, resources, risks, and project progress;
- Leading strategic transformation initiatives by connecting stakeholders, creating support, and sustainably embedding improvements within the organization;
- Reporting progress and results to management and stakeholders.

Location

Venlo

What KLG Europe offers
