

EDI Engineer

Do you enjoy working in a diverse IT team? Do you have a customer-focused, solution-oriented, results-driven, and eager-to-learn mindset? Are you pragmatic and down-to-earth in your approach to work? Then we are looking for you!

KLG Europe is an international logistics service provider. Transport and logistics are in our DNA. Logistics is a dynamic sector and a growing market where flexibility, responsiveness, and efficiency are essential. Reliable IT services are therefore of critical importance. Due to the rapidly changing digital landscape, KLG Europe's IT department is continuously evolving, always seeking innovation and optimization. To strengthen our IT team, we are looking for an Integration Developer (EDI Engineer).

Within the ICT department, the EDI team is responsible for building, maintaining, and managing data connections with both internal and external customers, as well as external partners. This is accomplished using Microsoft BizTalk in combination with internally developed tools for functions such as deployment and message tracking.

What will you do?

- Develop, configure, and manage integration solutions (EDI) within KLG;
- Document configurations, integrations, and solutions;
- Deploy interfaces into production environments;
- Support the implementation and maintenance of technical connections and communication protocols such as AS2, HTTP, and SFTP;
- Monitor EDI connections and initiate and follow up on corrective actions when necessary;
- Participate in a rotating second-line support schedule, working closely with the Application and Development Team. You will also gain knowledge of the communication modules within the TMS and WMS environments, allowing you to work more independently from other ICT teams;
- Contribute to the further development of KLG's standard messaging formats;
- Take initiative and proactively propose improvements.

What does KLG Europe offer?

- A professional team where collaboration and achieving results go hand in hand, allowing you to look back on your workday with satisfaction;
- Employment with a growing and financially healthy logistics service provider where values and standards have played an important role for decades;
- Attractive employment conditions, including a competitive salary based on full-time employment;
- 26 vacation days based on full-time employment, with an additional vacation day awarded for every five years of service ("loyalty days");
- Fresh fruit provided weekly and available in every department, plus a monthly treat;
- Various social activities and outings throughout the year, organized by both KLG and the employee association, including a Summer BBQ, Venloop, staff

party, Christmas lunch and drinks, beach volleyball tournament, Easter and Saint Nicholas celebrations for children, and other enjoyable events;

- Ample opportunities for training, personal development, and career growth;
- An informal and pleasant working atmosphere.

Your Profile

- Bachelor's degree level of working and thinking (HBO), or equivalent;
- Strong communication skills in both Dutch and English, spoken and written;
- Experience with programming (preferably C#), message transformation (XML/XSD/XSLT), and MS SQL databases;
- A team player who can also work independently and takes responsibility for individual contributions as part of the overall team performance;
- Accurate, detail-oriented, and able to remain composed in a fast-paced environment;
- Experience with Microsoft BizTalk or similar Enterprise Service Bus (ESB) platforms is a strong advantage;
- Experience with ArcESB (RSSBus), knowledge of APIs, web services, EDI standards (such as EDIFACT and ANSI X12), and/or automated logistics IT systems are an advantage;
- Experience within the logistics sector and/or in a large-scale environment with more than 100 interfaces is an advantage.
